

## Ocean Rise

How to design a scenario workshop on local management of ocean rises and flooding for local actors?

### Section C: What kind of knowledge?

No. 7: Persons in background group and invitees

Background group. Why and what should they do?

Hydrologists  
Geologists  
Meteorologists  
Biologists  
Zoologists

It is the task of the background group to qualify the technical content during the workshop. (meer balans tussen de scenario's, experts betrekken, locaties toegang tot krijgen, qualify the workshops)

Some of the potential participants invited for the scenario workshop in Næstved:

- Local and regional politicians
- Technicians
- Farmers
- House owners' associations
- Summer cottage owners
- Nature conservancy associations
- NGO's
- Tourist agencies and Business associations
- Hunters, fishermen, bird watchers and more
- Harbour Authorities
- Media
