

2nd CIPAST Training Workshop

CIPAST Database

Purposes of the database

- **Tool to** foster networking and experience sharing between STS actors throughout Europe
- **Tool to** facilitate the setting up of participatory processes:
 - gives contacts of reference institutions in terms of participation in S&T
 - gives access to experts in S&T related issues
 - gives examples of past or ongoing PP

- **Graphs:**
- Institutions / countries
- Participatory processes / Thematic
- Participatory processes / Type of process

- Web interface accessible via the CIPAST website
- 3 available lists:
 - reference institutions
 - reference institutions addresses
 - participatory processes
- Additional list (not yet online): experts
- Functions:
 - Filters
 - Export excel
 - Export pdf

How can you use it ?

- To identify reference institutions in the field of participation in S&T according to geographical, thematic or institutional criterias.
- To find examples of past or ongoing participatory processes, indicating contact persons and quoting reference documents.

- Checking and updating your institution's data.
- Indicating us institutions active or interested in the field of participation in S&T.
- Informing us about past or ongoing participatory processes in the field of S&T.
